3. If the Champion fails to make the weight, the title will be declared vacant, but the fight may still continue as a championship bout at the discretion of the WKF. Supervisor present at the time.

If the Challenger wins, they shall be declared the new Champion. If the Challenger fails to make the weight, the bout shall go on as a non-title bout. If the contest is for a vacant title and one the Challengers fails to make the weight, the fight may continue as a championship bout and if the Challenger who has made the weight wins, they shall be declared the new Champion.

4. Under no circumstances will the WKF participate in or sanction a bout for its title when one fighter is overweight; when there is a difference of more than 10 pounds between the two participants when the lighter of the two weighs more than 160 pounds and not more than 175 pounds; or 8 pounds between the two participants when the lighter of the two weighs more than 147 pounds and not more than 160 pounds;

### ***III Medical Requirements***

In order to encourage the preservation and protection of the health and welfare of Boxers who compete in bouts that are licensed for the WKF title, both the Champion and the Challenger must submit all medical reports of the Boxer's medical condition as required by the local WKF Boxing division having jurisdiction over the bout.

Prior to the contest, each Contestant must also receive a physical examination and approval by the Physician appointed by the local WKF Boxing division. The examination shall meet the standards as dictated by the local WKF Boxing division. At least one Physician shall be present at ringside and be seated at close proximity to each Boxer's corner.

### ***IV Knockdown and Knockout***

1. A boxer shall be considered to be "down" when any part of their body, other than their feet are on the canvas or if they are hanging helplessly over the ropes as a result of a legal blow as rules by the Referee, who is the only person authorized to determine this, or if they are still rising from the down position and not standing upright.
2. The mandatory **eight (8) count** rule shall be in effect in all WKF sanctioned title bouts.

### **No standing eight (8) count is permitted**

Three knockdowns in any one round do automatically terminate the fight. If in the Referee's judgment the knockdowns have been indecisive and clearly with no injurious effect upon the Boxer, the contest may be continued but with good sense and judgment and the Boxer's welfare always paramount.

3. When the Contestant is knocked down, the Referee shall audibly announce the count as he motions with his right arm downward indicating the end of each sound of the count. If the Contestant taking the count is still down when the Referee calls the count of ten (10), the Referee shall wave both arms indicating that the Contestant has been knocked out.

4. When a Contestant has been knocked down, the Referee shall order the Opponent to the farthest neutral corner of the ring and pick up the count from the Timekeeper or the official counting for knockdowns. Should the Opponent fail to stay in the corner as directed by the Referee, the Referee shall stop the count at the point that it was interrupted.

In the event of any knockdown, the Timekeeper's count will cease when picked up the Referee whose count shall prevail and be relied on by the Contestant.

5. A Contestant, who has been knocked out of the ring (body off the apron) as a result of a legal blow, may not be helped back in by their Corner people. The Referee shall allow the Contestant twenty (20) seconds to re-enter the ring and stand. Should the Contestant fail to re-enter the ring on his own by the allotted time, the Referee shall wave both arms to indicate that they have been knocked out and raise the hand of the opponent as the winner.

6. A Contestant **may not be saved by the bell** in any round. If a Contestant is down and the round has terminated, the Referee shall continue the count until the Contestant rises or is counted out. If a Contestant fails to rise before the count of ten (10), they shall be declared a loser by knockout in the round just concluded.

## ***V Illegal Actions***

1. It is expressly understood that a Championship contest is not to be terminated by the effects of a low blow. The protection that must be used by both Contestants is sufficient protection to withstand any so-call low blow which might incapacitate either one of the Contestants.

2. If one of the Contestants, after the Referee instructs them to continue, indicates an unwillingness to continue because of a claim of a low blow, the contest shall be terminated and the contest shall be awarded to their Opponent.

3. In case of any type of accident found, the Referee shall determine if the fouled contestant can immediately continue or not. If the Referee determines that their chances have been jeopardized as a result of the foul, the Referee may order an interval of not more than **five (5) minutes rest**. The bout shall continue hereafter if caused by a low blow.

4. Any Contestant who deliberately fouls their Opponent during a contest shall be penalized with a deduction of points or disqualification, depending on the severity of harmfulness of the foul and its effect on the Opponent.

## ***VI Fight Injuries***

### **1. FAIR BLOWS**

When an injury is produced by a fair blow and because the severity of the injury, the contest cannot continue, the injured boxer shall be declared the loser by technical knockout.

### **2. SELF-SUSTAINED**

If a boxer injures themselves, such as a broken bone or sprain and is unable to continue for any other self-sustained physical reason, they shall have lost by technical knockout.

### **3. INTENTIONAL FOULS**

If a Contestant intentionally fouls their Opponent and as a result an injury is produced and due to the injury, in the Referee's opinion the Contestant cannot continue, the offender shall be declared the loser by disqualification.

If in the subsequent rounds the same injury should become so severe that the contest has to be suspended, the decision will be awarded as follows:

- a). Technical draw, if the injured Boxer is behind on points or even on the score cards of the Judges.
- b) Technical decision, if the injured Boxer is ahead on points on the score cards of the Judges.

### **4. ACCIDENTAL FOULS**

If the Referee sees or determines that a Boxer has been accidentally injured by their Opponent so that they cannot continue, a technical decision shall be awarded to the Contestant who is ahead in points on the scorecards.

If under the same circumstances the fight can continue, the Referee shall notify the Judges, the Commission, and the local WKF Boxing division Commissioner that the injury has been caused by an accidental foul, so that if in the subsequent rounds the injury becomes so severe that the bout has to be stopped, the decision shall be awarded to the Contestant ahead on the score cards.

If a bout has to be stopped as a result of an accidental foul **before four (4) rounds** have been completed, the bout will result in a technical draw.

The fourth round shall be deemed to have ended when the bell rings ending the fourth round.

## ***VII Referee***

1. The Referee shall be the Chief official in every Championship contest and shall maintain supervision and control over the contest while it is in progress.
2. Before any Championship contest shall begin, the Referee shall ascertain the name of the Chief Second of each Contestant and shall hold the said Chief Second responsible for the conduct of their respective corner. Shaking hands by the Contestants is permissible immediately following the Referee's instructions.
3. The Referee is empowered to enforce the Rules and Regulations of the local WKF Boxing division and the Rules and Regulations of the WKF Boxing division pertaining to the conduct and behaviour of the Contestants.
4. The Referee shall be the only person authorized to determine if injuries were the result of legal blows, accidental fouls or intentional fouls and such determinations will be at the Referee's sole discretion.
5. The Referee shall have the power to stop a contest at any time (***DOD***) and render a decision at any stage if they consider it to be one-sided or if either Contestant is in such condition that to continue might subject them to serious injury.
6. If a Boxer sustains an injury from a fair blow or foul that the Referee believes may incapacitate the Boxer, the Referee is empowered to interrupt the contest and consult with the Ringside Physician on the advisability of allowing the bout to continue. The Referee is the only one permitted to signal the end of a bout.
7. The Referee and the Contestants acknowledge that the Referee is not to be an agent, servant or employee of the WKF.

## ***VIII Ringside Physician***

The Ringside Physician may enter the ring during the course of the round only at the request of the Referee. The Ringside Physician may enter the ring between rounds on their own, and advise the Referee about the condition of either Opponent.

In the event that the Ringside physician advises or recommends to the Referee to end the bout, the Referee shall immediately end the bout and in the event he/she does not do so the WKF will not be liable for any injury or death of the contestant.

## ***IX Timekeeper***

Subject to the requirements and discretion of the local WKF Boxing division, it is the WKF recommendation that two timekeepers should be used, but one may suffice. One keeps the time of the rounds, the other is utilized for the knockdown call. Two stopwatches are to be used. For **Male bouts**, the rounds are **three (3) minutes** in duration.

The intervals between rounds shall be of one minute's duration. Ten (10) seconds before the minutes is up, the timekeeper will sound a warning buzzer or whistle and announce "seconds out" in a loud, clear voice.

### **For Women's bouts, the rounds are two (2) minutes in duration**

The intervals between rounds shall be of one minute's duration. Ten (10) seconds before the minutes is up, the timekeeper will sound a warning buzzer or whistle and announce "seconds out" in a loud, clear voice. (*ten seconds warning*) Upon request from the referee, the timekeeper shall indicate that there are ten (10) seconds remaining in each round by knocking loudly on a table with a hammer or similar instrument.

When any part of a boxer's body other than his/her feet, is on the floor, a boxer is '**down**' and the knockdown timekeeper shall immediately start counting the elapsed seconds in a loud, clear voice. He shall indicate each elapsed second with progressive upraised fingers until the referee has either taken up his count or told the contestants to 'box'. It is entirely up to the referee to determine if a knockdown has occurred. If the referee ignores or waves away the timekeeper, then that is the official ruling.

With the exception of the last round, if the referee is in the course of applying a count and the round has been completed, the bell indicating the end of the round will not be sounded. If the boxer rises before ten (10) is counted and the referee gives the command 'box', the bell will be sounded to end the round.

When a referee orders and signals 'time', the timekeeper shall stop the watch and only restart it when the referee orders 'box'.

The timekeeper must always be alert to accept any signals from the referee.

## ***X Illegal Substances***

### **DRUGS AND STIMULANTS**

1. The administration or use of drugs, injections or stimulants, either before or during a match, to any Boxer or by any Boxer is prohibited. This includes smelling salts, ammonia capsules or similar irritants. Any contestant who violates this Rule shall be subject to disqualification.

2. The local WKF Boxing division shall order anti-doping examinations immediately before or after the contest. The urine sample shall be supplied in the presence of a member of the Local Boxing Commission, the Commission Physician or their appointee, and a representative of the Boxer.

Such specimen must be collected either at least twelve (12) hours before a bout or twenty four (24) hours after a bout.

The specimen shall be collected in a sterile container and shall be divided in two (2) equal parts also in sterile containers. The specimen shall be labelled with the Boxer's name, date, time and place. The specimen shall be sealed in the presence of the above-witnesses and signed by them.

A second specimen shall be used in case of doubt, spilling or argument.

If it becomes necessary to examine the second specimen, the Boxer in question, or their representative, may observe, in detail, the opening and analysis of the specimen. The Boxer, or their representative, may be accompanied by a qualified adviser selected by them.

The Boxer shall indicate at the time they give the specimen if they are under medication. If the Boxer is under medication, they shall provide evidence that they are using it for therapeutic purposes by means of medical certification and such medication may not be prohibited by the local WKF Boxing division.

Any drugs prohibited by the **International Olympic Committee** shall be considered illegal drugs by the WKF, whether considered performance enhancing or not and shall subject the violator to disqualification.

3. Any substance, other than plain water, given to a Contestant during the course of the bout is absolutely prohibited. A discretionary amount of lubricant may be used around the eyes; however, the use of lubricants, grease or any other foreign substance on the arms, legs or body is prohibited.

4. A discretionary use of coagulants approved by the Ringside Physician, such as adrenalin (1/1000), may be allowed between rounds to stop bleeding of minor cuts or lacerations sustained by a Contestant during the course of the fight.

If the mouthpiece is dislodged during competition, the Referee will call time and replace the mouthpiece at the first opportune moment without interfering with the immediate action. Points may be deducted by the Referee if they feel the mouthpiece is being purposely spit out.

**All female boxers must wear chest protectors and groin protectors**

3. A knockout will include a technical knockout and a disqualification.

3. If, for any purpose the chosen amount of rounds on which bets are offered is altered, all round by round betting will be void, but match wagers will be valid.
4. Bets will be settled on the official result directly following the fight. Announcements or enquiries after this outcome will not impinge on the conclusion.

## **XV Rules of the Bare-Knuckle Fighting Championship**

All fights last 2 minutes per round and each battle lasts 5 rounds.

Clothing: All fighters must have a groin cup, a mouthpiece, boxing pants and boxing or wrestling shoes. A standard groin guard and chest protector is mandatory for ***all female fighters!***

Fighters are permitted to wrap and tape the wrist, thumb and metacarpal. There should be no gauze or tape within 1 inch of the knuckles.

The fighters stick to the line. There are two lines one meter apart in the centre of the ring where the fighters begin each round. The front foot is on the line and then the referee instructs the fighters to "Knuckle Up" which signifies the start of the round/fight.

Punches with the fist are the only permissible punch and must be delivered with a closed fist. (No kicks, elbows, knees or grappling)

In the clinch, the fighter can use his open hand to fight his way out. If there is a break of three seconds in the fight during the clinch or clinching, the referee will separate the fighters.

If a fighter is knocked down, the referee must count until 8 or decide for knock-out. The fighter has 8 seconds to get back to his feet or the referee will stop the fight. It is NOT permitted to attack a downed fighter. No **“three knock-down rule”** will apply!

If a fighter continues to attack a downed opponent, he/she will be disqualified and the purse may be forfeited. If a fighter is correctly knocked down, the referee will direct the other fighter to move to a neutral corner.

If a fighter is injured and the blood obscures the fighter's vision, the referee may call a timeout and give the cutman 30 seconds to stop the bleeding. If the bleeding from the injury cannot be controlled and the blood continues to obscure the fighter's vision, the referee will stop the fight and award the victory to the other fighter.

All fighters are expected to behave in a completely sportsmanlike manner.

### **Competition regulations for “Boxing with MAA gloves”**

The competition rules and regulations for “bare knuckle fights” essentially apply. As is usual in the WKF, all fights must be conducted with a ring doctor! The protective equipment for men and women remains the same! The fighters are only allowed to strike with the knuckles of their closed fists, no strikes with their open hands.

The usual Olympic 4-rope boxing ring or a commercially available OCTAGON with an internal diameter of at least 6 meters is considered to be the approved fighting area. A 5th rope in a boxing ring is permitted if required.

The BKFC weight classes listed below are binding. A WKF sanctioned event can also be held in the “Open Weight” tournament mode – i.e. without the individual weight classes.
